ENVIRONMENTAL POLICY

Pearce Recycling Ltd. is committed to protecting the environment from harmful effects as a result of its business processes and activities.

The Company achieves this policy by effective Management and Production Processes, using an Environmental Management System conforming to EN ISO 14001:2004.

Company Commitment:

- The protection of the environment from pollution by company processes and activities.
- Compliance with relevant environmental legislation and regulations that are applicable to the environmental aspects of company activities and products.
- A management system to monitor and control the effects of the company activities on the environment.

Company Guiding Principles:

- Establish and maintain environmental performance at each relevant function within the organisation.
- Set targets for continuous improvement in environmental performance at each relevant function.
- Ensure that any environmental impact is considered in product and process activities.
- Expose and solve problems at source and put efforts into prevention of environmental damage.
- Conduct Management Reviews of environmental performance achievement against objectives.
